

NOTE: This is the table of contents/outline for the entire book. For publishing length purposes portions of the book had to be posted on this web site as noted below. The balance of the book (Most of the Introduction, Sections 2 and 3 and Appendices) can be purchased as a soft cover book through the links posted on the web site saving the trouble of reading it all on a computer screen or spending a lot on printing costs. (Some sections appear both on the web site and in the book as noted)

However, as an alternative you can download or view the book in its entirety as a .pdf file, as needed since it will be referenced on this web site.

THEorY of LIVEvolution: “Great” Society of the UN-dead
