

THE UN-AMERICAN GENOCIDAL COMPLEX

by Robert Roselli

Preface

This book, my second, will hopefully shock the “average” reader in to the realization of the evil “They” are capable of; an evil that can only be ascribed to “The Angel of Light” or “the serpent” himself. As someone who has read copious sources as diverse as the King James Bible to “New” Age guru Helena Blavatsky and the “Ascended Master” Djwhal Khul who “spoke” through Lucius Trust (a current NGO or non-governmental organization of the United Nations) founder Alice Bailey I can tell you that when one peels away the onion layers of “the conspiracy” you end up back at the Garden of Eden. Have no doubt that “They” have one goal in mind: the elimination of a large portion of the world’s population and outright socio-economic control of what “They” allow to remain since “They” have already anointed themselves as “God”. So whether it’s the establishment of genocidal maniacs like Adolf Hitler, the horrific “science” of evolution and today’s radical environmental movement, the blatant scam of the “Federal” “Reserve” system or the purposeful deployment of killer diseases like AIDS all is designed to achieve those two ends. For more background please visit my web site www.boxofsunglasses.com to investigate these things and more to your own satisfaction. Everything that I say or write is corroborated with ample footnotes and bibliographical information. Please check out some of them for yourself before passing judgment. Both in this book and on the web site I strive to provide the correct balance between establishing enough background versus length in terms of the time invested in reading the information. Unfortunately there’s more; much more to “the conspiracy”. As much as I have read and subsequently written it only represents the tip of the iceberg. But maybe this is enough as the tip warns of the much bigger danger lurking beneath.
